Programming Languages: C++, C#, C, HLSL, JavaScript, Python, Java, TypeScript, GDScript
Software: Unity, Godot, Github, Adobe Suite, Blender, Miro, Figma, Clip Studio Paint, Aseprite

Work Experience

stardozing, BellyUp Games, <https://stardozing.com/> March 2026 - Present

Founder, Technical Designer, Technical Artist, Network Engineer, 3D Generalist

- **Participated in the [Game Grove Incubator](#)**, a 3-month incubator providing funding, mentorship with 20+ professionals, and direct help with establishing healthy production rhythms.
- **Co-founded BellyUp Games, LLC** to ship the game on Steam.
- **Implemented online multiplayer** with Fishnet and Steam.
- Led the development of a comprehensive, modular map generation system.
- Built a custom lighting and shading system to support our creative direction for the cave system.
- Showcased at game development events in Santa Cruz, Oakland, and Seattle.

Eltanin, Studio Verdigris, store.steampowered.com/app/4015000/Eltanin/ July 2025 - March 2026

Lead Designer, Level Designer, UX Designer, Technical Artist

- **Won the first cross-UC game jam out of 40+ entries** in both popular and judges' vote.
- Led the development of **37 physics-based puzzles** with the philosophies of exploring unique, emergent interactions of core systems and of heavy iteration.
- Authored custom HLSL shaders and VFX with Unity's particle systems in accordance with our established art style to polish UX and enhance gamefeel.

Game Design and Art Collaboration (GDA), <https://gdacollab.com/> September 2024 - June 2026

Lead Designer (June 2025 - June 2026)

- Lead the design team in ideating, designing, prototyping, and iterating on core game systems.
- Developed and delivered comprehensive game design lectures in weekly department meetings.
- Reformed a **200+ student games studio** for a more efficient, agile production style.

Designer (September 2025 - June 2025)

- Established, maintained, and improved **design documents, wireframes, and mockups**.
- Communicated and collaborated across all development disciplines in a large studio environment.

Projects

Game Jams June 2025 - Present

Tugboat Fishin', Solo Development, GMTK 2025, <https://aegishehe.itch.io/tugboat-fishin>

- Experimented with 2 distinct, but harmonious, gameplay sections, with the goal of creating a memorable moment for players with the surprise transition between the two.

Slingstar, Studio Verdigris, International College Jam #6, <https://saisionerogue.itch.io/slingstar>

- Experimented with stylistic, low-poly 3D art style as Lead Technical Artist, VFX Artist, and Animator.
- Emphasized comical, expressive motion in accordance with the game's core pillars.

Additional Game Jams: Super Space Whalez Ultra Deluxe - Jame Gam 50, Polaris - Uni Game Jam, ROI - Brackeys 2025.2
