## Technical Skills

---

**Programming Languages:** C++, C#, C, HLSL, JavaScript, Python, Java, TypeScript, GDScript  
**Software:** Unity, Godot, Github, Adobe Suite, Blender, Miro, Figma, Clip Studio Paint, Aseprite

## Work Experience

---

**Eltanin**, Studio Verdigris, [store.steampowered.com/app/4015000/Eltanin/](https://store.steampowered.com/app/4015000/Eltanin/)                      July 2025 - March 2026  
Lead Designer, Level Designer, UX Designer, Technical Artist

- **Won the first cross-UC game jam out of 40+ entries** in both popular and judges' vote.
- **Co-founded Studio Verdigris to ship fully realized game on Steam.**
- Led the development of **37 physics-based puzzles** with the philosophies of exploring unique, emergent interactions of core systems and of heavy iteration.
- Facilitated **30+ playtests** with peers, professors, and industry mentors for quality assurance.
- Authored custom HLSL shaders and VFX with Unity's particle systems in accordance with our established art style to polish UX and enhance gamefeel.
- Storyboarded, captured footage, and edited a reveal trailer in Adobe Premiere Pro.

**Game Design and Art Collaboration (GDA)**, <https://gdacollab.com/>                      September 2024 - Present  
Lead Designer (June 2025 - Present)

- Reforming a **200+ student games studio** for a more efficient, agile production style.
- Developing and delivering comprehensive game design lectures in weekly department meetings.
- Leading the design team in ideating, designing, prototyping, and iterating on core game systems.

Designer (September 2025 - June 2025)

- Established, maintained, and improved **design documents** over a 16-week development cycle.
- Drafted and iterated on **wireframes and mockups** in Figma & Excalidraw for UI/UX and scene flow.
- Communicated and collaborated across all development disciplines in a large studio environment.

## Projects

---

**Game Jams**                      June 2025 - Present

Tugboat Fishin', Solo Development, GMTK 2025, <https://aegishehe.itch.io/tugboat-fishin>

- Experimented with 2 distinct but harmonious gameplay sections, with the goal of creating a memorable moment for players with the surprise transition between the two.

stardozing, project stardozing, Unlikely Collaborators Game Jam, <https://aminisofia.itch.io/stardozing>

- **Implemented online multiplayer** with Fishnet and Steam.
- Prototyped and established a strong mechanical and aesthetic foundation for a 3D multiplayer game.
- Editing 1-2 short devlogs weekly to generate interest as we continue development.

Slingstar, Studio Verdigris, International College Jam #6, <https://saigonrogue.itch.io/slingstar>

- Experimented with stylistic, low-poly 3D art style as Lead Technical Artist, VFX Artist, and Animator.
- Emphasized comical, expressive motion in accordance with the game's core pillars.

Additional Game Jams: Super Space Whalez Ultra Deluxe - Jame Gam 50, Polaris - Uni Game Jam, ROI - Brackeys 2025.2

## Education

---

**Monterey Peninsula College**, Monterey, CA                      August 2022 - May 2024

A.A. in General Studies: Communication and Analytical Thinking | General Studies: Social Sciences                      GPA: 4.0

**University of California Santa Cruz**, Santa Cruz, CA                      September 2024 - June 2026

B.S. in Computer Science: Computer Game Design                      GPA: 3.76
